

Children Documenting Their Work

- Documentation is the story of what happened and a lot happens over the course of a day in preschool. Much of what children build and create needs to be cleaned up in order to move on to the next part of the day. Having systems and materials in place for children to document what they have made is a great way for them to save their work, and later reflect on their learning or use as an assessment.
- 'Save My Work' book: Simple tiny books in a container that children can easily access to record their work.
